Saturday Heat Schedules will be made available to Team Captains as soon as all Teams have been registered. Notification will be by email. Racing is scheduled to begin at 7:00 AM. Teams shall arrival 1 hour prior to assigned race time for registration check-in (ID wrist bands). Each team will race twice on Saturday.

Sunday

Sunday Race Schedules will be emailed to Captains as soon as possible after the compilation of Saturday's Time Trials.

The starting order for all races will be determined prior to race day by the BDBF Race Committee and be issued to Team Captains by email. The starting order will also be posted at the marshaling area. Each race will start as soon as possible following the race preceding it, with races to be held approximately every 15 minutes.

Although the order of races shall remain constant, the start times shall be approximate. Each team must be prepared to race significantly before its estimated race time. Team Captains are responsible for monitoring the progression of the races and ensuring that their team is ready to race when called upon, regardless of the estimated start time. At its discretion, the BDBF Race Committee may not wait for teams that are not ready to start prior to their estimated race times.

4c) Pre-Race Procedure

Teams shall report to the marshaling area at least 15 minutes prior to the estimated start time of their race. Team Captains are responsible for reporting in at marshaling area (outside yellow tape), and may accompany their teams onto the docks only when called by race officials.

Teams shall board the Dragon Boat designated to them and will proceed to the start area on instructions from the Race Officials/Dock Staff.

When proceeding to the start area, teams shall paddle beside the Boston shoreline up past the race official's launch, without entering into the racing lanes regardless of whether the racing lanes are in use or not. Staying in lane will help to avoid collisions and congestion when Dragon Boats turn for the start. All Dragon boats shall stay clear of powerboats even though Dragon Boats have the right of way.

Once past the starting line, the teams shall then make sharp turns to the left so that they line up in the start area back from the start line facing down their lanes. Unless otherwise directed, teams shall not venture into the river 50 meters beyond the start area. In the event of maneuvering difficulty caused by wind, the starter may direct teams to assemble in the river past the start area, and then direct the teams to approach the start area as a group.

4d) Race Procedure

The Starter shall have control of the race prior to the start. Only Steerspersons may communicate with the Starter, and such communication shall be kept to an absolute minimum.

In the Starter's discretion, without waiting for stragglers or waiting for teams which have ventured into the river above the start area, the Starter shall ask the teams to "Please approach the start line." All teams shall immediately do so, lining up in the middle of their designated lanes, facing straight down the course, not crossing the start line, and holding in position one half boat length before the starting line.

If, in the Starter's opinion, a Steersperson is not capable, the starter shall direct that that team withdraw from the race. The starter will ask each crew to bring their Dragon Boat up to, but not over the start line. The starter will instruct each team as to how to position itself, and may occasionally be assisted by the timekeeper. Once all

teams are in the middle of their lanes, facing straight down the course, not moving forward, and not having crossed the start line, the Starter shall call: "Ready!" and within two seconds sound the start horn. If the start horn is not available, a voice command will be used by saying, Ready, Set, Go. Upon the word go or upon hearing the starting horn, each team shall proceed to the finish directly along the middle of its racing lane, without crossing out of its racing lane, without encroaching on the side of its racing lane, and without riding the wake of another Dragon Boat.

A false start shall be indicated by the Starter sounding the start horn a second time. Steerspersons and Drummers are responsible for noticing if a false start has been called. After a fair start, the Starter shall resume control of the race.

The Chase Boat shall follow the Dragon Boats down the course, and if necessary and where possible, direct Steerspersons to maintain the middle of their lanes. If a Dragon Boat appears to be losing directional control, is crossing out of its lane, is encroaching on the side of its lane, or is riding the wake of another Dragon Boat, the Official in the Chase boat may either stop that Dragon Boat, or any or all other Dragon Boats, so as to avoid possible collisions. If progress of a Dragon Boat is affected by another Dragon Boat, the Chase Boat Official shall either halt the race and issue a restart, or offer the offended team the opportunity to run the course again in a later heat.

If, for any reason, circumstances arise such that the Starter or the Chase Boat Official, at their discretion, determines that a race should be halted, then either official shall halt the race and issue a restart. If a Dragon Boat is not steering straight down the course, its crew shall immediately "Hold Water" so as to prevent the Dragon Boat from crossing out of its lane or spinning out. Restarts make take place immediately, or may be held later in the day, at the discretion of the Race Director. At the finish, the Chase Boat Official will signal a clean race by radio transmission to the Race Director.

Penalties shall be reported by the Starter or Chase Boat Official to the Race Director.

4e) Post-race Procedure

Upon crossing the finish line, all teams shall turn left and proceed back to the docks, being very careful to not turn broadside into Dragon Boats still finishing. Paddlers with access to bailing buckets shall bail continuously from the finish until back at the dock. Paddlers shall not splash or otherwise deliberately bring water into the Dragon Boat. Upon arrival at the dock, each Dragon Boat must be substantially free of water and be ready for the next race.

Teams shall approach the docks at a dead slow pace so as to avoid collision damage.

4f) Race Penalties

Teams missing the start of their **race may be assessed a five second penalty or disqualified from that race**. Neither the Race Director, nor the Starter is obliged to wait for tardy teams.

In all races, time penalties and restarts will be called at the Starter or Chase Boat Official's discretion:

Any Dragon Boat false starting may be penalized 2 seconds. Any Dragon Boat false starting for the second time in the same race may be penalized an additional 3 seconds.

Any Dragon Boat affecting the progress of another Dragon Boat may be penalized 5 seconds.

Any Dragon Boat crossing out of its lane but not affecting the progress of another Dragon Boat may be penalized 2 seconds. **NO WAKE RIDING!** Any Dragon Boat not obeying instructions from the Starter or Chase Boat Official shall be disqualified at their discretion. The onus is on the team, particularly the Drummer and Steersperson, to keep alert to such instructions, particularly while progressing down the course. General sanctions continue to apply in addition to race penalties.
